THE FIRE DEPARTMENT-Shall There be a Change in the Personnel of the Force?—On Sa urday afternoon the Board of Fire Commissioners. met Governor Cooke for consultation in regard to the status of the members of the present fire department. At this meeting Mr. Wm. A. Cook, corporation attorney for the District, claimed that the present members of the fire department should be removed to give place to the men who were dismissed at the commencement of Mr. Emery's administration; that the term of service of these men had expired at the close of the late manicipal government. They were therefore only holding their places until steps could be

taken for a change.

Governor Cooke said he was not in favor of a change. If the term of service of these men had expired they describe credit for remaining in their positions. He did not see the force of the argument regarding the men who composed the old department. They would have lost their places, too, with the expiration of the municipal government, and by the death of the late corporation their claim to place ceased, so that the point made by Mr. Cook would not hold good. After a full discussion of the subject the conference closed, the impression left upon the minds of the Commissioners being that the Governor was opposed to interfering with the department as at present constituted unless changes were made for proper cause, the men then having a tair trial upon the charges before removal. It is reported that two of the commissioners, Messrs. Baker and Booker, are in favor of making radical changes in the department. Mr. Smith desires a few changes, while Messrs. Bayly and McDevitt are totally opposed to turning any of the men out unless charges are preferred in a proper manner. It is also stated that the first repesition made was to depose foreman John-en, of the Hock and Ladder Company, and fill his position by the appointment of Thos. Sorrell.

MR. HARDY RESIGNS.-Last week the newly appointed Commissioners of Schools in the county notified the teachers in their several districts of their appointment. Mr. Henry Hardy, the teacher of school No. 3, seventh district, on re-ceiving such notification from Mr. C. K. Donglass, the commissioner in that district, on Wednes-day last informed his pupils that the last moment of his labors with them had come; that he could not consent to receive orders and obey directions frem a colored commissioner, and bade them farewell, closing the school then and there. Hardy also informed the Governor of the fact, and of the appointment of Douglass saying to the Governor:—"I feel quite certain that his ap-pointment by you was pointedly designed to be matter of offense and oppression to myself and many other worthy citizens of the district, who were such for a long series of years before the untoward fates led you or Mr. Douglass to direct your unsolicited steps hither, I beg to inform you that I do not succumb to your essay at negro supremacy in my case, whilst I am now, as I always have been most heartily disposed to accord to the colored people whatever can be of any, the smallest, actual benefit to them, morally, intellectually, or physically, as individuals or a race." On Friday afternoon the keys were delivered to the new commissioner, and we learn that a new teacher will take charge to-day. Mr. Hardy many years ago taught one of the public schools of this city, and afterwards was city editor of the National Intelligencer. He is a hot-bested politician, of the anti-New Departure democratic school, and just the man to flare up in this way. Mr. Douglas, the colored School Commissioner, to whom Mr. Hardy so seriously objects, is the son of Frederick Douglass, and is a young man of intelligence and capacity."

BOARD OF PUBLIC WORKS .- The Board of Public Works met on Saturday, with Gov. Cooke in the chair. A communication was received from Mr. Gatchell, president of the Society for the Prevention of Cruelty to Animals, in relation to drinking fountains being placed in suitable po-sitions throughout the city, and the secretary was directed to request the Legislative Assembly to make an appropriation therefor. A petition for a drop and lateral at the southeast corner of the public reservation at 8th and K streets was referred to the engineer, to be done when an apriation is made. Also, petition from Dr. J. F. May, reporting the man-trap on the southcast corner of 7th and E streets as insufficient; referred to engineer. Also, one from Thomas Sheridan and others, asking for the erection of a pump on the southeast corner of 20th and P. streets; referred to the engineer. The secretary was instructed to prepare a circular to the per-sons in charge of improvements in the various wards, requesting a report of the amount of old and new material in their possession. A petition was received, asking that the new cut road from 7th street, Georgetown, to the Little Falls bridge be repaired, as it is in a dangerous condition; referred to engineer, with instruction to repair as seen as appropriation is made.

SERIOUS ACCIDENT TO THE WIFE OF PROP. HENRY.-We regret to learn that Mrs. Henry, wife of Professor Henry, met with a serious acci-dent at the Smithsonian Institution on Saturday evening last, about 11 o'clock. In passing from her bedroom to an adjoining apartment she went through a hall which was dark, feeling her way, and when she reached what she thought her door, she moved on and stepped off the landing, falling down fifteen stone steps to the stone pavement below. The family were aroused by hearing the fall and hastened to the spot, when the was found insensible, having been stunned by the blow on her head. Dr. Morgan was summoned, and found her injuries quite serious, her right arm and collar bone being broken. This morning Dr. Tyler of Georgetown, the family physician, was in attendance, and Mrs. Henry is semewhat easier, having had the broken bones set and the bruises on the head dressed.

AN ARTIST AND A PRETTY WAITER GIRL.— The Chroniele this morning has an account of the alleged elepement, some days since, of "a smitten artist, known as Thomas Nash," with the youthful and pretty wife of a well-known proprietor of a lager beer brewery and pleasure garden on Capitel Hill, stating that the "beautiful blonde" eloper "was" formerly a pretty waiter girl in a lager beer saloon on 10th street, below Pennsyl-vania avenue, and her name is "Mary Ruppert;" that she went with her artist lover to Baltimore, from whence she returned to Washington, after a few days passed in that city; also, that the hus-band will probably seek relief in a divorce court. It is represented by the blonde's friends, how-ever, that she was never married to the brewer.

THE STRANGE DISEASE AMONG THE PRESI-DENT'S HORSES.—The President has lost one of his favorite Hambletonian colts by a disease sim-fiar to that which killed one of his blooded mares ilar to that which killed one of his blooded mares two years ago. Another coit of the same stock is sick, but is improving, and it is thought will be cured. The disease makes its appearance in the form of a sore, and extends up the back, causing the hair to fall out, and soon kills the horse. Thus far the skill of the veterinary surgeons has been defied in successfully treating this disease. "Jeff. Davis" and "Cincinnati" are the only two of the President's horses now here, except the diseased colt, which is kept in a reparate building.

ESCAPE OF A NOTORIUS HORSE THISE PROM JAIL.—George Gaines, the accomplished horse thief, escaped from the Leesburg jail Thursday night by sawing the bars near the top of the grating between the north room and the passage, and then digging down through the passage floor, and then going over the wall by a rope made with his bed clothes. He attempted to saw the bars of the south rooms, so as to enable two bars of the south rooms, so as to enable two negro girls to escape. His case was continued last spring and the jailor pronounced the prison unsaic.—Cor. Alex. Gazette.

The new carpet on the east room still remains on the floor, but the furniture has been covered with white linen, the damask curtains removed, and the rooms now present a neat and

cool appearance. SABBATH EVENING IN THE DIVISION.—Last evening, the services at Reddy Welch's American Hall were well attended, and the congregation, made up as it was of all sorts of people, was quite orderly. Rev. G. A. Hall conducted the services, and remarks, interspersed with singing and prayer, were made by Capt. Wilkinson, Mr. Napp, Dr. Chayton, and others.

THE WILLARD HOTEL SALE .- In consequence of some legal difficulties, the sale of the effects of this hotel did not commence this morning, but the Equity Court having decided in favor of Mr. Sykes, the sale will most positively commence to-morrow morning at 10 o'clock, and will continue from day to day until all is sold.

THE COURTS. The Bowen B' camy Case.

SHALL HE PAYE A NEW TRIAL! This afternoon, in the Criminal Court, Judge Olin. the case of C. C. Bowen, convicted of bigamy, was called, and Mr. Harrington moved that sentence be passed upon him.

Mr. Riddle stated that Mr. Merrick, whom he had relied upon to make the opening argument on the question of postponing sentence, was engaged in the Circuit Court, and that he had expressed a wish to be heard on the question. Riddle commenced his argument by saying Mr. Riddle commenced his argument by saying that at the trial of the case a record was presented in evidence, also, that under statute of 1832 asking instructions and under the ruling exceptions were taken, and the Court admitted the defendant to bail. The Court is now asked to suspend sentence. Now the question is can the Court continue this case to hear reasons for a new trial. Mr. R. quoted 1st vol. 17th and 18th sections, Bishop on criminal proceedings, as embedying the general doctrine on the subject. The law is that the superior court can admit to bail during the course of prosecution except in the actual execution of the sentence. Mr. Riddle read a number a number of authorities on this subject.

At the conclusion of Mr. Riddle's remarks, Mr. At the conclusion of Mr. Riddle's remarks, Mr. Harrington said the case is still open and subject to review, but would be concluded on the judgment of the court being given, which he contended was the duty of the court to do, in order to complete the recduty of the court to do, in order to complete the rec-drd of the case. There were only two ways to bring this case before the courts again—by a new trial or an arrest of judgment. This case had been adjudi-cated in the Court in General Term and by the Crim-inal Court. It had been decided over and over again that conviction or judgment follow. Judgment might be suspended on motion of the counsel for the government during term time only. He quoted from Bishop that the sentence of a court is not his own sentence, but the sentence of the law. He had no doubt but that the court had power to take ball, either before or after the passing of the Be had no doubt but that the court had power to take bail, either before or after the passing of the syntence; but the sentence must be given. This was not a motion for a new trial, because there had been no sentence pronounced. He contended that with-out some particular circumstance, no person ought to be admitted to bail after being convicted of a felony and sentenced, but it was in the discretion of the court.

Mr. Harrington was speaking when our refort COURT IN GENERAL TERM .- This morning in the Court in General Term-Judges Wylie, Olin, Humphreys and MacArthur on the bench-Judge Wylie delivered the opinion of the court in the case of Uturmelle agt. Keifer, setting aside the decree betw and directing a new decree to be drawn. A de-cree was made in this case for the payment of \$5.80, which included usuries interest when it should have been for \$4.00 and interest, as was remembered the court. Judge MacArthur dissented on the ground that in equity a case can not be reopened after the actual enrollment of a decree. Mr. Page, from the committee on examination, reported favorably on the applications of W. H. Webster, and D. J. Parthe applications of W. H. Webster, and D. J. Par-tello for admission to the bar, and they were admit-ted. French agt. Hav; appeal allowed to U. S. Su-preme Court. The weekly statement of the associate l banks of New York is unfavorable, showing a loss of ever million and a half dollars in legal reserve, which amount is fully taken away from the surplustrative, owing to a further but limited increase in Labilities. The banks do not appear to have been approchensive, however, of any ill results to follow this loss of resources, for they have expanded over two millions in the item of loans. The loss in specie is smaller than was anticipated, taking into consideration the fact that the government sold only one million of gold against customs receipts of \$2.079,185, and a specie expert of \$1.520.568 for the week. The discrepancy is difficult to explain unless on the theory that the cliques on the Stock Exchange have in some manner affected the specie item so as to prevent the ill effects upon speculation of a heavy decrease.
